SILVERSTONE
MATERIALHANTERING

HPG20S | Galvanized, 2000 kg

The galvanized pallet truck is a low cost alternative to the stainless steel truck. The warm galvanized truck can “heal” small scratches which mean less corrosion. Equipped as the stainless steel truck plus grease nipples.

HPL20S | Low profile, 1000 kg

This low profile pallet truck is only 35/51 mm high in its lowest position. Used for extra low pallets. Reinforced forks and chassis enables this low profile version. The HPSL20S has forkwheels of steel while the HPL20S has PU.
