Experience & Innovation

For more than 90 years YASKAWA has been manufacturing and supplying mechatronic products for machine building and industrial automation.

A leader in Inverter Drives technology

Extensive research and development has allowed YASKAWA to remain at the forefront of motion control and automation technology. This technological leadership has helped to modernise industries such as mining, steel, pulp and paper, chemical, automotive, packaging, machine tool and semiconductor.

Its standard products as well as tailor-made solutions are famous and have a high reputation for outstanding quality and durability.

The famous YASKAWA reliability is now available in an even smaller and more powerful unit.

J1000 is fully capable of efficient performance and energy saving, handling variable speed needs in compact applications.

The J1000 cutting-edge features such as:

- ▶ V/f Control
- ▶ Plug'n Play installation function
- ▶ Over-Excitation Braking
- ▶ Easy parameter programming and controller functions
- ▶ Braking Chopper
- ▶ Heavy duty / normal duty rating
- ▶ International standards
