

PTFE Lubricant +

A high quality dual action penetrating and lubricating oil with PTFE, to solve Automotive lubrication requirements.

Part N°:

84065 (PTFE) - 500ml aerosol.

Industrial: 84066 (PTFE) - 500ml aerosol

Features

- Contains PTFE
- NSF registered
- Penetrant and lubricant in one

- Multi purpose product
- Clear formulation
- Leaves a dry coating

Benefits

- Leaves a lubricant coating even when dried out
- Safe for incidental food contact
- Penetrates to leave a lubricant coating in close fitting components
- Reduces stock inventory
- Use in visible areas
- Will not attract dust and dirt

Applications

General lubricating and/or freeing off of Cables, Suspension Bushes, Hinges, Door Locks, Brake and Clutch pedals, Sunroof Mechanisms, Bonnet Catches, Bonnet and boot Hinges, Seat Runners, Petrol Caps, Choke and Throttle linkages, Electric Aerials, Steering Column Bushes, Runners on curtain sided trucks, Gear Change Linkages, Gear change Cables and most other areas where a

light lubricant or penetrant is required.

Instructions

To show the clear nature of this product, spray a small amount onto a steel plate, and point out how it will be less visible in painted areas such as around door hinges and checkstraps.

Agitate with finger to remove the solvent and show to the customer how it changes from a thin penetrant with solvent, to thicker oil like constancy when solvent has dissipated.

Explain that this is to allow the product to penetrate before thickening up to provide maximum lubricity.

Encourage the customer to rub the product between finger and thumb to feel lubrication

abilities.

Hints & Tips
